

Sujal Verma

vsujal956@gmail.com | +91-7710893839 | Mumbai, Maharashtra, India

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Skills

- **Programming Languages:** Java, Python, JavaScript (ES6)
- **Frameworks & Tools:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, REST APIs, Socket.io
- **Databases:** MySQL, MongoDB, Git, GitHub, Linux, Postman, Google Cloud, n8n
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Education

- Shree L.R. Tiwari College of Engineering, Mumbai | BE | IT | **SGPA (SE): 7.83** Aug 2024 – Present
- Matrushaya Jr. College of Science, Mumbai | XII (HSC) | **69.50%** February – 2024
- DR. H.B. Mishra English High School, Mumbai | X (SSC) | **82.00 %** March – 2022

Work Experience

CodTech IT Solutions Private Limited - [\[Certificate\]](#)

Dec 2025 - Jan 2026

- Built a real-time chat application and a collaborative document editor using Socket.io and WebSockets for seamless live communication.
- Developed a responsive web interface and a productivity-focused Chrome extension to fetch API data and track user analytics.
- Integrated robust backend systems using Node.js and Python with MongoDB/PostgreSQL for efficient data storage and management.

Tech Stack: React.js, Node.js, Python, MongoDB, PostgreSQL, Socket.io, and REST APIs.

Cyber Security Intern (Inhouse): SLRTCE, Mumbai

June 2025 – July 2025

- Developed a real-time malware scanning tool using Python, improving detection speed by 20%.
- Use Cases of Cybersecurity & Threats (malware, phishing, ransomware, DDoS attacks, etc.)
- Implemented the Networking & Security- TCP/IP, Firewalls, VPNs, Proxy servers.

Tech Stack: Python, TCP/IP, Firewalls, VPNs, Proxy Servers

Projects

GuardianRoute – Intelligent School Transport System

[Demo](#) | [GitHub](#)

Tech Stack: Node.js, Express.js, Socket.io, Leaflet.js, MongoDB Atlas, HTML5 Geolocation API

- Built a real-time school bus tracking system... no GPS hardware required, just the driver's phone — eliminating the need for dedicated IoT hardware.
- Built an interactive Parent Dashboard with Leaflet.js map integration, delivering live travel status and automated pickup/drop-off notifications to improve child safety transparency.

Verity AI – AI Auditing & Hallucination Detection – Hackathon, NMIMS GDG Cloud Mumbai

[Demo](#) | [GitHub](#)

Tech Stack: Python, Node.js, Express.js, MongoDB Atlas, Google Cloud API, JWT Authentication, HTML5/CSS3.

- Built an independent AI auditing layer with a custom multi-layer evaluation engine that scans LLM responses in real-time to detect hallucinations and factual inconsistencies, deployed and demoed at GDG Cloud Mumbai hackathon.
- Created a scoring system called Gen Score... useful for teams that need to moderate AI output for AI-generated outputs.

Eco-Detect – Smart Plant Disease Detection - Full Stack AI Web App

[Demo](#) | [GitHub](#)

Tech Stack: React, TypeScript, Tailwind CSS, OpenAI Vision API (or relevant API).

- Developed a full-stack AI web application using OpenAI Vision API and React/TypeScript to classify plant diseases from uploaded leaf images, delivering instant binary health assessment (Healthy / Diseased).
- Added client-side image validation before sending to the API, which cuts unnecessary requests

Certifications & Achievements

•	Participated in Build with AI Bootcamp- Antigravity , Google for Developers H2S	April – 2026
•	H.E.A.T 1.0: Ignite Innovation 24-Hr Hackathon, Atlas SkillTech University	March – 2026
•	Shortlisted for Build & Grow AI Hackathon 2.0 – NMIMS, GDG Cloud Mumbai	Jan – 2026
•	SuperHack 2025 (Global AI Hackathon), SuperOps , in collaboration with AWS & Hack2skill	Jan – 2026
•	Walmart Global Tech – Advanced Software Engineering Job Simulation (Forage)	Jan – 2026
•	Gemini in Google Cloud – Google AI Labs, Mumbai	Oct – 2025
•	Hackathon: Participated in Smart India Hackathon, Hack the Web by Unstop	Sept – 2025

Position of Responsibility

•	Information Technology Student Association (ITSA) – Committee Member
